INFORMAL AMENDMENT DOCUMENT
FOR REFERENCE IN DISCUSSING APPLICATION

Examiner Chambers, this is a document showing proposed amendments to the claims. In accord with our conversations yesterday, functional language from the last two paragraphs of the 6,743,111 patent has been incorporated into the independent claims. My understanding is that at least claims 1 and 7 (and those that depend therefrom) are now in condition for allowance. I also worked this into the remaining independent claims (claims 4 and 13,) along with the necessary antecedent basis (i.e., that the markers are foot positioning markers and club positioning markers). This involved moving the subject matter from claim 5 into claim 4 and canceling claim 5. As such, I believe that the remaining claims are also in condition for allowance. The only other change was from "on" to "adjacent" in claim 13. "Adjacent" is used in claim 1 and in other places and should not pose a problem.

Please call me at your convenience at 913-451-5130. I hope this fax is helpful, and I look forward to speaking with you. Thank you for working with me on this application.

Respectfully,

Justin Poplin
